## WORK EXPERIENCE

### REACT / REACT NATIVE DEVELOPER

CN GROUP, S.R.O. / BRATISLAVA, SLOVAK REPUBLIC / MAY 2022 - JUNE 2023

As a part of a dynamic and highly skilled team of developers, designers, and product managers I got the opportunity to gain a robust understanding of developing web and mobile applications using React and React Native while participating in these projects:

- **Mobile app for Interflex:** A native mobile application for a big client from Germany. It was a greenfield project with FE Tech stack that included React Native in combination with Redux for offline data management and a big focus on accessibility features.
- **Internal system:** An employee management system complete with vacation module, home office scheduling, event planning and much more. The FE stack incorporated React, with the integration of the Ant Design library.
- **CN company website:** A dynamic website built using React and Next.js, completed with Emotion library for styling, and Storybook for UI development.

Some of my responsibilities included:

- Developing and maintaining responsive web and mobile apps.
- Creating modular components for scalable code.
- Ensuring cross-platform compatibility.
- Collaborating with cross-functional teams.
- Optimizing performance and code quality.
- Engaging in code reviews.
- Troubleshooting and debugging.
- Using version control systems like Git.
- Staying updated with the latest technologies for ongoing innovation.

### FRONTEND DEVELOPER

SOLO TRADE / FREELANCE / BRATISLAVA, SLOVAK REPUBLIC / MARCH 2019 - MAY 2022

During this period, I had the opportunity to work on numerous projects, both independently and collaboratively. Most of these projects involved building websites from scratch, utilizing technologies such as Sass, CSS3 animations, jQuery and React. Additionally, I gained experience working with WordPress and Elementor Pro to create fully functional e-commerce websites.

My responsibilities spanned the entire web development process, from initial client consultations to understanding their requirements, crafting site logic, implementing responsive designs, and ensuring on-time project delivery.

## EDUCATION

### APPLIED COMPUTER SCIENCE

Masaryk University - Faculty of informatics  
Brno, Czech Republic / 2018 - 2019

### BILINGUAL PROGRAM IN ENGLISH LANGUAGE

Gymnazium Pakuchova 6  
Bratislava, Slovak Republic / 2013 - 2018
